

## J. J. Keller® Training on Demand – Customer Testimonial

“Training on Demand simplifies my work by providing an easily accessible, interactive learning curriculum on a consistent, web-based platform for employees across varied locations. I would recommend J. J. Keller’s Training On Demand because of its quality content, impactful learning, awesome technical support and convenient reporting. Kudos!”

“The content of the Foreign Corrupt Practices Act online course is both thought-provoking and engaging. It provides a strong balance of relevant information that clearly articulates our firm’s alignment with the FCPA law. It also offers a practical application that brings the learning to life. The inclusion of the quiz requires some level of proficiency be obtained, and the game allows training participants to take a fun, light-hearted approach to solidifying concepts — which helps make the key themes more memorable.”
